Report

Mathematrix 2018 was this year's first intercollegiate and intercollege mega event organized by the Mathematics Association of TKREC on 27th and 28th of July 2018. The aim of the event was to make the event a better way to learn Mathematics. Professor Dr. K P Supreethi (Prof. at Professor and Head of the Department CSI, JNTUH) was the Guest of Honour for the inauguration ceremony. The main highlight of the inauguration was an automatic ribbon cutting ceremony at the auditorium entrance based on the Domino effect. An Exhibition was put together by the students. An exhibition was held in the auditorium showcasing various concepts revolving around Mathematics. Some of the topics were Galton Board, Maths and Beauty (Golden Ratio, Fractals, and Persian Architecture), Shape of Universe and Paradoxes. Prof V Kamakshi Prasad, a renowned Mathematician graced our exhibition and congratulated the organizers for showcasing such an interesting concept. A 'Mathemagician Show' by Mr. Valance Fernandez was a hit among students as the magic of numbers left them baffled. The event was graced by the participation of more than 500 students from colleges across Telangana in the competitions viz. Move with Math, 4D Quiz, Numero Art, Mathemaniac & Battle of Bids. At the end of both the days, winners were awarded with exciting gift hampers sponsored by Camlin and certificates. Report

THINK TANK, an initiative of the Entrepreneur Development Cell (EDC), endeavors to promote the entrepreneurial instinct within the students and hone their creativity and entrepreneurial instinct.

Students and aspiring entrepreneurs from all corners of the nation joined us on 4th February, 2021 for this landmark initiative which was launched as a part of MONETA's objective to increase awareness in finance and entrepreneurship. MONETA introduced this unique platform for aspiring entrepreneurs to not only discuss ideas but also to network with like-minded individuals and gain synergy by making contacts and receiving constructive criticism.

Team MONETA was absolutely delighted to have Mr. Kunal Rambhia as our judge for the event. He is a Hedge Fund Manager and a Global Training Strategist by profession. He is also an author and professor. He has been featured on many news channels such as CNBC TV18, ET NOW. He is also the Founder and Fund Manager of a private fund 'THE STREETS'.

The event this year consisted of 3 rounds, all of them were conducted on an online platform.

In the first round the teams had to make a video in which they had to introduce their business/start-up idea. The teams included their business logo and slogans and crisply demonstrated their start-up ideas, only 12 teams qualified for the next round.

In the second round, the participants were given 8 minutes for presentation followed by 5 minutes of questions/answers evaluated on the following basis -

1. Introduction of your idea and valuation
2. Explanation and demonstration of your idea
3. Cost and feasibility analysis
4. Market research
5. Marketing strategies
6. ROI and expected returns

The participating contingents expressed their business ideas with the help of a PowerPoint presentation which was critically evaluated by the judges. Only the Top 6 teams made it to the final round.

In the final round, the teams had to make an advertising/marketing video of their start-up idea and had to garner likes on their respective videos. The round basically judged the creative aspect and customer engagement aspect of their start-ups.

Report

Understanding the importance of speech and public speaking, we, The Group Discussion Cell of Teegala Krishna Reddy Engineering College had organised the GD Week from 27th January 2022 to 1st February 2022.

Amidst all the upcoming advancements in the education field, we decided to discuss what the students have to say about it! And thus, the theme of our GD Week was 'Education Experimentation Evolution!'

The topics encircled the changing education system in India. Amidst the technological advancements and changing policies, the education system has undergone several changes. The topics emphasized on some of such transformations taking place. This included several topics ranging from "E-Learning: a substitute for Classroom learning.", "Should there be government intervention in Indian education system" and "Does the name of the institution matter?"

Students expressed their views and gave different perspectives to the same. The discussions were quite healthy and gave positive outcomes as well. After all, the aim of any group discussion should be progress not victory. The judges for the week were alumni of our college: Ms. Aishwariya, Mr. Eshan, Mr. Mayuresh and Ms. Tanvi. The judges gave very constructive remarks to the students. Individual feedback by the judges helped students improve their skills.

Our college realises the importance of group discussion in a student's life hence provides a platform through group discussion cell where students can enhance their communication and listening skills and correct their mistakes.

"A group discussion increases the dimensions of everyone who takes part"

Report

The Forum Mathematics Association of Tkr organises a Pan India Level Festival Mathematrix. The aim of Mathematrix has always been to remove the stigma attached to Mathematics as a boring subject by presenting it to students in a fun way through challenging competitions and exhilarating exhibitions. We successfully hosted the first-ever version of Online Mathematrix last year with 1000+ participants from college and 1150+ participants from school. Be it through the exhibitions, or the various events, Mathematrix uses the magic balance between fun and learning to give an experience that not many have the luxury to. All while inculcating a deep interest in the field of Mathematics. The seed of a thoughtful vision sown ten years back has bloomed into a vibrant flower today! We are proud to announce that...

THE YEAR 2022-23 MARKS THE 10TH YEAR OF MATHEMATRIX SPREADING MATHGIC!

The Theme of this year was Magical, Mysterious and majestic. These are the words that portray what π land is all about! Team Mathematrix has received a call for help from an unknown location, with only the coordinates as our guide. We are setting forth on a daring expedition to this mystical island to see what lies yonder. Our ancient knowledge suggests that the only language that works there is Math! Past, present, and future along with imagination and reality, all converge in a draMATHic manner on this island. Who will join us for this mathematical adventure and who can help us explore the perilous parts of π -land! Who will be the Vasco Da Gama venturing forth into this unknown expanse? Who will be the DISCOVERERS OF THE DECENNIUM?

Social Initiatives

Team Mathematrix, heartily dedicates itself to the benefits of self and society. Thus, social initiatives form an integral part of Mathematrix where avenues are identified for Mathematrix to lend a helping hand in. This year, Mathematrix aims to provide specially-abled students a platform to explore their intellectual capabilities and their love for mathematics. Distinguishing between a regular student and a specially-abled student is never done in Mathematrix as the level of the event set for them is the same. It's just the mediums of executing that are different.

Target Audience

Mathematrix is a fest that includes all the various facets of a student's life from school to college and through the various social initiatives impact students of various backgrounds. Mathematrix includes both children from schools studying in standards 7th to 10th as well as college students of various fields from 11th to Third year Degree College. We are proud to inform you that This year Mathematrix opened its doors to over 1500 students from Eng colleges and over 850 college students for the online round 1 200 students for round 2 colleges and 150 students for round 2 colleges

From facing the sharks to being in the process of being one, The ESummit Conclave was a stage where we were graced by the presence of the contestants of Shark Tank Season I.

The E Summit Conclave allowed everyone to interact with successful entrepreneurs who faced the Sharks last year: Ms. Niti Singhal (Founder and Designer of Twee in One), Mr Vikram Mittal (Founder of Mavi's) and Mrs Krishna Vora (Founder of Mom's Therapy).

The conclave showcased their journey in 'Shark Tank' and their experience as contestants. They spoke about the hardships and failures they faced and also about how Shark Tank impacted their business, along with inspiring and giving advice to budding entrepreneurs in the audience regarding entrepreneurship. The session concluded with them interacting with the audience in a Q&A format and giving much-needed advice to the up-and-coming youth. The conclave was attended by 450+ participants.
