Stakeholder Curriculum Feedback Actions Taken on Regulation (R18)

ACTION TAKEN REPORT ON CURRICULUM FEEDBACK

Feedback on the curriculum is collected regularly from various stakeholders; employers, faculty, students, and alumni. The collected feedback is then analysed by DAC committee of the EEE Department and following actions are proposed. It is proposed to have some computer programming/ simulation labs.

- Certificate courses, new Value-added courses, and skill based activities were introduced.
- Lectures on OER were taken by various departments introducing different types of copyrights and free access of study materials for advanced learning.
- Lectures and workshops were organized on types of reputed journals, UGC care list, Scopus and Elsevier publishing houses.
- International, National and State level Conferences, Seminar and Workshop are consistently planned under faculty development program.
- Necessary initiatives were taken to improve student-faculty interaction and to understand the challenges and opportunities present in the Institute and to counsel their academic and personal problems 'Students Mentoring System' is introduced.

Stakeholder Curriculum Feedback Summary and Actions Taken (CSE)

Feedback on TKR-18 collected from various stakeholders. Following are the inputs received from the stake holders regarding the syllabus.

The Stake holder feedback report was put forward in the DAC meeting of CSE department and a detailed discussion was made and the following actions were proposed:

FEEDBACK SUMMARY

- Students requested more hands-on experience and projects in the curriculum to enhance practical skills. Faculty members emphasized the need for continuous updating of course content to keep pace with technological advancements
- Alumni recommended the inclusion of real-world problem-solving and coding competitions to prepare students for competitive job markets
- Parents highlighted the necessity for a balanced approach between academics and extracurricular activities to ensure overall development.
- Industry representatives stressed the importance of aligning the curriculum with current industry needs, especially in areas like AI, Big Data, and Cloud Computing.

ACTION TAKEN

- Increased the number of lab sessions and introduced project-based learning in various courses. Added a capstone project in the final year to synthesize knowledge from different areas. Regularly revised syllabi to include the latest trends and technologies.

College Code: R9

- Provided faculty development programs to help instructors stay updated with current industry practices.
- Organized hackathons, coding competitions, and industry case study challenges. Introduced elective courses focused on competitive programming and algorithm design.
- Encouraged participation in sports, cultural events, and technical fests. Provided counselling and support services for student well-being and stress management.
- Introduced specialized courses in AI, Big Data, Cloud Computing, and other emerging technologies. Established industry collaborations for guest lectures, workshops, and seminars.

Stakeholder Curriculum Feedback

Summary and Actions Taken on Regulation R18

Feedback on R18 collected from various stakeholders. Following are the inputs received from the stake holders regarding the syllabus.

The Stake holder feedback report was put forward in the DAC meeting of IT department and a detailed discussion was made and the following actions were proposed:

FEEDBACK SUMMARY

- Student's suggestions were about including more practical sessions along with theory.
- Faculty suggested including more guest lectures on advanced technologies and practical oriented sessions.
- Employers suggested introducing emerging technologies in the curriculum keeping in view, students' employability and current market trends.
- Parents were satisfied with curriculum.
- Alumnae's feedback was satisfactory as the curriculum has introduced many advanced courses.

ACTION TAKEN

- Advanced courses like Full Stack Development, Computer Vision are included along with practical and more case studies are encouraged.
- New Courses based on current advanced technologies like IoT (Internet of Things), Deep Learning, and Blockchain Technologies are introduced as professional electives.
- Syllabus of some subjects was revised based on the stakeholders' suggestions.
- Some of the existing courses were revised on par with present advancements.
- More Workshops and hackathons are being conducted for students according to the present industrial needs.

Stakeholder Curriculum Feedback

Summary and Actions Taken on Regulation R20

Feedback on the curriculum is collected regularly from various stakeholders; employers, faculty, students, and alumnae. The collected feedback is then analysed by DAC committee of the CE Department and following actions are proposed to the concerned Board of Studies. It is proposed to have some computer programming/ simulation labs.

Stakeholder Suggestions:

- Enhance computer abilities and technical skills, including simulation software expertise.
- Incorporate trending industry-oriented subjects and emerging areas..
- Provide more software training related to civil engineering.
- Emphasize placement-oriented courses.

Actions Taken:

- Plan to add Civil Engineering simulation-oriented courses in the R22 curriculum.
- Include prevalent industry-related and skill-oriented courses.
- Integrate Industry 5.0 courses,
- Continue with existing practices..
- Strengthen industry connections for core placement skills.
- Ensure availability of reference books mentioned in the curriculum

Graduate Feedback Analysis on Curriculum (Regulation: R20)

Academic Year: 2022-23

S.No	Statements
1	The existing Curriculum ensures quality
2	The Electives offered and courses in each Electives are relevant
3	The Electives Offered is relevant with respect to the Technological advancements
4	The Curriculum focuses on program learning outcomes and essential skills required by industry
5	The design of each Course Curriculum ensures extra learning or self-learning.
6	The Programme Curriculum is relevant to the placements or higher studies
7	Curriculum contains wide range of courses under CBCS including core and value added courses
8	The percentage of courses having Lab components is fair

TEEGALA KRISHNA REDDY ENGINEERING COLLEGE (UGC-Autonomous)

Approved by AICTE, Affiliated by JNTUH, Accredited by NAAC- 'A' Grade
Medbowli, Meerpet, Balapur, Hyderabad, Telangana- 500097

The feedback taken from students about curriculum of the Department on 17th June, 2023 reveals the following facts:

- 70% of students graded that the quality of curriculum is Very good.
- 65% of students had an opinion that the curriculum requires much focus on essential skills required by industry.
- 41% students believed that Electives offered should be relevant with respect to technological advancements.
- 46% of students are satisfied with respect to placements and higher studies.
- It has also been observed that improvement is required in Lab facilities.
- 28% considered syllabus content suitable for self-learning.
- Suggestions to improve practical demonstrations & skills required for employment was noted.

ACTION TAKEN REPORT ON CURRICULUM FEEDBACK

Feedback on the curriculum is collected regularly from various stakeholders; employers, faculty, students, and alumni. The collected feedback is then analysed by DAC committee of the EEE Department and following actions are proposed to the concerned Board of Studies. It is proposed to have some computer programming/ simulation labs.

- It is also proposed to have new topics in both professional core and in open electives.
- Some advanced technologies in the courses are proposed to add in the syllabus.
- It is proposed to see that laboratory experiments are organized according to the theory of the corresponding courses.
- It is planned to organize industrial visits relevant to the syllabus of few courses.
- Necessary initiatives were taken to improve student-faculty interaction and to understand the challenges and opportunities present in the Institute and to counsel their academic and personal problems 'Students Mentoring System' is introduced.

The feedback taken from Alumni about curriculum of the Department on 6th August, 2023 reveals the following facts:

- Institute's efforts towards encouragement of research and innovation are highly rated by 87% of the respondents.
- Under the academic initiatives taken by the Institute to improve technical know-how of the students, 30% of the respondents suggested to increase the Industrial visits.
- 12% of the respondents suggested special lectures and seminars on emerging global and national trends in technology.
- It would be beneficial to the student if more practice sessions in various technologies are included in the Curriculum.
- It was advised to have sound knowledge in the areas of Linux, Drivers & RTOS at the college level.
- It was suggested to have focus on Programming languages (C, C++ & Advance Java).
- It was recommended to upskill the students in various technologies like AI, ML & Cloud Security.
- It was recommended to upskill the students in various domains, so that lay-offs will not affect the career.

Stakeholder Curriculum Feedback

Summary and Actions Taken on Regulation R20

Feedback on R20 collected from various stakeholders. Following are the inputs received from the stake holders regarding the syllabus.

The Stake holder feedback report was put forward in the DAC meeting of CSE department and a detailed discussion was made and the following actions were proposed:

FEEDBACK SUMMARY

- Faculty members suggested revision of some subjects and to introduce industry collaborated courses.
- The focus of students is more on the labs which should include new courses which are more related to their core area and help them do their projects.
- Parents suggested introducing new courses which meets industry requirements.
- Employers emphasized on introducing advanced course and new tools which help students gain knowledge on par with current trends.

ACTION TAKEN

- New Courses related to core specialization, like Data Science using R, Exploratory Data Analysis, Mobile Application Development were introduced in the curriculum.
- Syllabus of some subjects like Machine Learning, Automata and Compiler Design were revised upon the stakeholder's suggestions.
- Workshops with hands-on, hackathons are being conducted as value added courses to gain more practical knowledge.
- Advanced courses like Python, R, DevOps were introduced as part of lab curriculum along with theory which help them do their mini and major projects.
- MoU's were signed up with software companies to give real time exposure to students.

Stakeholder Curriculum Feedback

Summary and Actions Taken on Regulation R20

Feedback on R20 collected from various stakeholders. Following are the inputs received from the stake holders regarding the syllabus.

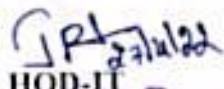

The Stake holder feedback report was put forward in the DAC meeting of IT department and a detailed discussion was made and the following actions were proposed:

FEEDBACK SUMMARY

- Student's suggestions were about including more practical sessions along with theory.
- Faculty suggested including more guest lectures on advanced technologies and practical oriented sessions.
- Employers suggested introducing emerging technologies in the curriculum keeping in view, students' employability and current market trends.
- Parents were satisfied with curriculum.
- Alumnae's feedback was satisfactory as the curriculum has introduced many advanced courses.

ACTION TAKEN

- Advanced courses like Full Stack Development, Computer Vision are included along with practical and more case studies are encouraged.
- New Courses based on current advanced technologies like IoT (Internet of Things), Deep Learning, and Blockchain Technologies are introduced as professional electives.
- Syllabus of some subjects was revised based on the stakeholders' suggestions.
- Some of the existing courses were revised on par with present advancements.
- More Workshops and hackathons are being conducted for students according to the present industrial needs.

College Code: R9

Parent Feedback on Curriculum for Academic Year - 2020-21

Your feedback valuable to improve our curriculum, kindly fills the form below

Name of the student	G. Narmadha
Name of the student/ward	G. Venkat Reddy.
Course year	IV Year

Rank of the description	5	4	3	2	
	excellent	Very good	good	Average	poor

Directions: please tick the appropriate box to indicate the level of satisfaction with the following statement

S no	Statement	rating				
		5	4	3	2	1
1	How do you rate the quality and the relevance of course introduced the program	✓				
2	Infrastructure facilities like library, computer labs, canteen and other campus facilities	✓				
3	How do you rate the outcomes that your ward has achieved from the courses?	✓				
4	How do you rate the transparency of the evaluation system in the institute?	✓				
5	Does the faculty /Institute regularly informs you about your ward performance?	✓				
6	The curriculum has been designed to make the students/industry ready by imparting analytical and reasoning, language and soft skills in addition to technical as designed by the industry	✓				
7	Students sensitized towards cross cutting issues like gender equality, environment and sustainability, ethics and values through relevant courses in the curriculum	✓				
8	How do you rate overall personality development of your ward during the course	✓				
9	Any other feedback that you would like give to the college:					

Signature: Venkat Reddy
